

Features:

- **Allows for heavy EUT loads** in both Elevation (75lbs) & Azimuth (600lbs)
- **Variable Speed** in both Elevation & Azimuth
- **Continuous Rotation** allowed in both Elevation & Azimuth (with optional components)
- **Low Density** EUT holder
- **Low RF Cross-Section** materials above drive units
- **Portable (no permanent installation necessary)**
- **Remote Azimuth Drive Option** by separating drive units
- **Height** customer defined
- **Fiber Optic** connection to Controller (includes SC104V-2 System Controller)
- **GPIB** full control
- **CUSTOM** EUT mounts
- **Under-Floor AZ** drive option
- **Under-Floor EL & AZ** drives option

SPECIFICATION	STANDARD	OPTIONAL
Maximum boom load	~34 kg (75 lb.)	
Speed (EL & AZ)	EL - 0.2, 0.3, 0.7, 1.2 rpm AZ - 0.5, 1, 2, 3 rpm	Customer defined
Precision & Resolution (EL & AZ)	Display Resolution: 0.25° Precision: $\pm 0.25^\circ$	
EUT Height	1.5m above the ground plane	Customer defined
