

# AM-PIVOT Antenna Mount

## Product Overview

TDK RF Solutions' AM-PIVOT Antenna Mount is designed to fit into the TDK RF Solutions' TRI-150R Tripod. The AM-PIVOT will rotate 360° in the TRI-150R and can be locked in position with a thumbscrew. The AM-PIVOT also pivots > 90° from vertical to the right or left, allowing you to quickly change from horizontal to vertical polarization or lock it into position in between.

### AM-PIVOT

Mounting head is cut for TDK RF Solutions Antennas

### AM-PIVOT-FLAT

Mounting head is Un-cut for all applications

## Applications

- Immunity Testing
- Emissions Testing
- Antenna Positioning

## Options
