

## FLOOR STRUCTURE COMPONENTS

### USING AL20 EMI SHIELDED FOIL (Vinyl or ESD Tile Floor with Perimeter Flashing)

4" x 4" or 6" x 6" 26 Gauge Galvanized Steel L Flashing is Typical  
 Wall Shielding Attaches to the Vertical Portion of the Flashing  
 Clear Zinc Coated Screw Anchors in to the Metal Wall Stud to Ground the Floor Shielding

No Concrete Products in the VCT Adhesive  
 Finished Tile can be ESD Tile with ESD Adhesive

AL20 Can be Butt Jointed or Overlapped and Seam Taped  
 With AL5 ECPSA Foil Tape  
 Depending on the Shielding Effectiveness Required
