

FLOOR STRUCTURE COMPONENTS

USING AL5 EMI SHIELDED FOIL (Epoxy Floor with Perimeter Flashing)

4" x 4" or 6" x 6" 26 Gauge Galvanized Steel L Flashing is Typical
Wall Shielding Attaches to the Vertical Portion of the Flashing
Clear Zinc Coated Screw Anchors in to the Metal Wall Stud to Ground the Floor Shielding

No Concrete Products in the Epoxy

AL5 Can be Butt Jointed or Overlapped and Seam Taped
With AL5 ECPSA Foil Tape
Depending on the Shielding Effectiveness Required
